Re: Landscape Corridor Swale area on South Hwy 97

Dear Sir,

The Urban Forestry Commission has a planting standard for the South Y Corridor in which effects your business. The Public Works Department is requiring all business follow this standard for planting in the swale area of Hwy 97. I have listed below the list of tree choices for planting in this area.

- Red Oak
- Scarlet Oak
- Norway Maple or Cultivar Maple
- Cleveland Maple
- Pin Oaks
- Sunset Maple

Prior to any planting, please contact the Public Works Department to review your planting stakes for proper location and spacing of the trees.

Thank you for following this city planting standards for your corridor of Madras when planting your trees.

Best Regards,

Rodney R. Fulton  
Street & Parks Supervisor
