City of Madras Trails

- The Willow Creek Trail System provides a non-motorized form of transportation linking residents to downtown commerce, area schools, churches, and other recreation.

- Currently, the Madras loop consists of nearly seven miles of paved trail.

- The City leverages resources through grants, agency collaboration and private partnerships to implement the City’s Bicycle and Pedestrian system goals.

- Some of our trails have incorporated the Track Trails program. The Track Trails program promotes children’s health by increasing physical activity. Each Track Trail includes a kiosk, specialized signage, and self-guided “adventures” that include fun games and educational activities about the outdoors.

- Trails are just one of the many outdoor recreation efforts that are helping move Madras closer to its goal of being one of the most livable communities in Central Oregon.
